

Hi! How are you? Hope your day is going well! I just wanted to share with you the great impact Air 1, 90.1 FM has on our family. As a full time mom, it is so refreshing to have music with a positive message. I have 3 girls 9,7 & 4 and I have to go out of my way to keep them from negative influences of other radio stations...finally there is a station we can trust and they love the music. I prefer to hear them sing,"we love you lord" rather than "give it to me baby", Please keep Air 1 on the air-this is truly a great station with a worthy goal of affecting peoples lives and helping them to make changes that make our society better. Thank you for your time. Mrs. DeMaria
